PRINZ MOBILE SAWS

PRINZ ECOSTAR

The ECOSTAR by PRINZ is for universal use and an ideal entry-level model for efficient cross-cutting ends and cutting through round timber and stacks, and much more. Best value for money and an infinity of applications.

TECHNICAL DATA

With the ECOSTAR, you cut at low costs and without compromising the quality.

ergonomic cutting handle facilitating an easy raising of the guide bar

- large front plate for easy square aligning of the saw against the package
- 5 l oil tank capacity for many hours of operation
- easy chain replacement
- quickly pays for itself thanks to low purchase and operating costs
- for cross sections up to 130 x 130 cm (width x height)

PROFICUT L / PROFICUT S

The mobile crosscut saws Proficut light (7,5 kW) and Proficut S (11 kW) are a further development of the ECOSTAR and can additionally be delivered with a package loading frame.

FEATURES

high cut accuracy with two stabilisers • large front plate for exact squaring of the saw against the package • automatic lubrication of the sawchain directly on the cutting edge • cross sections up to 130x130 cm (width x height)

PROFICUT PETROL

As further alternative, PRINZ offer the Proficut with a powerful 20 PS gasoline engine.

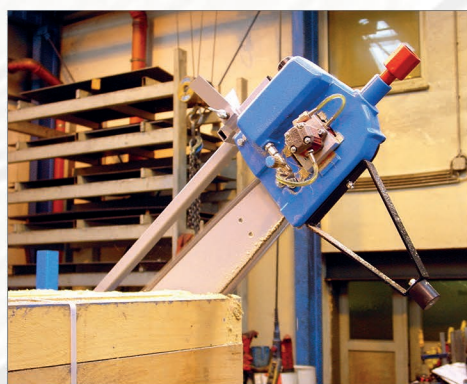

TWIN-L

For growing capacities and suiting our Proficut saws, we offer a package loading frame in different sizes.

TECHNICAL DATA

saw is positioned manually and fixed • the guide bar is always perpendicular to the package • the saw remains in perfect position during the entire cutting process

ACCESSORIES IN HIGHEST QUALITY

With PRINZ genuine accessories, the maintenance and care of your chainsaws is solved quickly and easily

✓ RIVETING AND UNRIVETING DEVICE

for a quick and easy chain repair • suitable for chipper and scraper chains

✓ JOLLY CHAIN SHARPENER

easy to use, manual sharpening • exact sharpening for enhanced life span of your sawchains

✓ PEG

The PRINZ equalising device PEG is perfectly suited for optimal repair and maintenance of your guide bars. The guide bar's running surfaces are corrected and burr formation is ground off.

✓ PRINZ SPECIAL SAW-CHAIN OIL

Obtainable in 100 and 150 viscosity for optimal protection of your bars and chains • outstanding lubrication and adhesive properties • available in 60 l and 210 l package

✓ PRINZ INHOUSE SERVICE

PRINZ also offer a comprehensive servicing of your cutting equipment, with an inhouse repairing of your guide bars and sharpening of your chains.
