PRINZ PACKAGE SAWS WITH A

MOBILCUT LIGHT

The Mobilcut light is a positioning saw with a package frame to cut stationary packages. The saw positioning is manual, the guide bar moves along a guiding arch for high cut accuracy. The saw stands out due to an easy operation, a sturdy design and an excellent stability. With a maximal frame length of 7,5 m, it can also be installed where space requirement is limited.

TECHNICAL DATA

- saw motor power 7,5 kW
- manual feed for cutting
- to process packages up to 600 x 130 x 130 cm (L x W x H)
- delivered with length indication
- +/- 2 mm cut accuracy

MOBILCUT COMFORT/ COMFORT+

Additionally to the Mobilcut light version, the Mobilcut comfort is equipped with an hydraulic feed for cutting and is even more efficient through the motor of 11 kW.

TECHNICAL DATA

saw motor power 11 kW • hydraulic feed for cutting • to process packages up to 600 x 130 x 130 cm • equipped with length indication • manual positioning • +/- 2 mm cut accuracy

The Mobilcut Comfort+ offers in addition to position the saw automatically via a length measuring system.

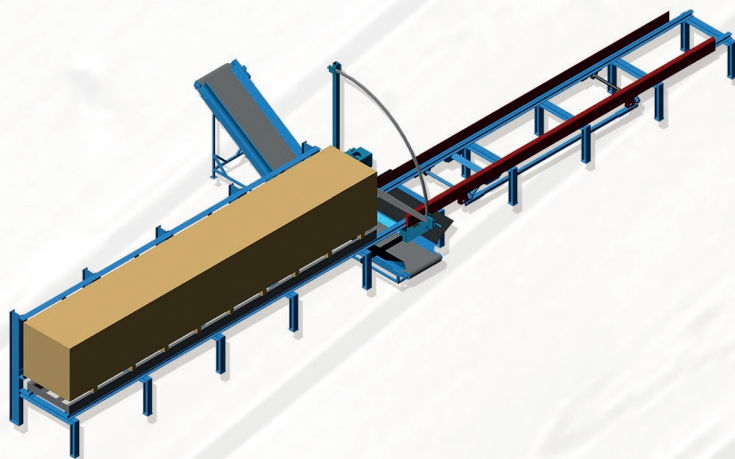

CROSSCUT

The Crosscut complements the range of PRINZ crosscut saws with arch guide frame. In this model, the saw is fixed to the loading frame and a travelling carriage positions the stacks. Available with manual cut function and PLC control. Many options are available: kerf opening, strapping systems and much more.

TECHNICAL DATA

saw motor power 11 kW • hydraulic feed for cutting • for packages up to 600 x 130 x 130 cm (L x W x H) • +/- 2 mm cut accuracy

Errors and misprints excepted.
